I.W.

April 30/35.

F.W.Taylor, Esqre.  
Engineer & Secretary.  
Ryde Gaslight Company.  
Ryde.

---

Dear Mr Taylor,  
Jubilee Festivities.

---

Referring to your Mr Barter's call here conveying your very kind offer re Coppers on May 6th, I had the pleasure of bringing this before the General Committee last evening when the Vicar was in the Chair and there was a very representative gathering present. Your offer was considered exceedingly generous and kind, expressions which it was left to me to convey to you, at the same time offering to you the Committee's best thanks. Now, on consideration, in the light of your offer, it has been thought that it would be better not to trouble about removing the Copper from the Congregational Church nor the second one named in my original letter, but to get you to be good enough to send 3 (three) for the New Town Hall, and 1 (one) for the Church Hall, 4 in all. No doubt your Mr Buckett will satisfy himself as to positions & connections before Saturday. I am also to ask if you will be good enough to arrange

for the Meters (New Town Hall as well as Church Hall) to be read before fixing and after removing the Coppers so that the Gas consumed can be charged to the Festivities Committee.

Again thanking you,

I am, dear Mr Taylor,  
Yours very truly,
